November 15, 2019

Dear Kiwanis leader,

We have discovered three errors to the final membership and club numbers for the 2018-19 administrative year, and accordingly have decided to take the unusual step of issuing a **revised annual report of our certified membership for 2018-19**.

The three changes are in the Belgium-Luxembourg District, the Eastern Canada and the Caribbean District, and Korea. The Belgium-Luxembourg and the Eastern Canada and the Caribbean districts both show small increases in membership for the year. Korea's membership remains unchanged from the previous year. These changes revise the overall Kiwanis International membership decreasing from 191,439 to 189,263, now a smaller -1.1% drop.

Our performance compared to the previous five years is shown on the charts below.

The other comments shared in our October 15 release of the 2018-19 membership numbers remain unchanged.

The revised certified membership report is attached.

Best regards,

Stan D. Soderstrom
Executive Director
